

**Special solvent resistant suction system**

- Permits to spray in any position: overhead, sideways, vertical...

**Tank 0.5 litres, impact resistant, transparent whites**

- Visible fluid level
- Conical design for extra stability

**Measurement scale 100 ml**

- For accurate filling and mixing

**Nozzle adjustable & closable**

- For spraying mist and jet
- Avoids flow out of chemicals during transport, shut off nozzle position to avoid spilling during transport

**Piston pressure up to 15 bar**

- Fine and economical spray
- Powerful long reaching jet
- Better performances and results

**Economic, robust spray head with wide hand support**

- Easy pump operation for fatigue-free working conditions
- Can be operated by three fingers
- Extended durability

**Frequent reusable and refillable device**

- Long life time and preservation of our resources and environment

**Typical applications**

For mineral oil based products, form oil, lubricants and degreasing agents. Specially suitable also for car and truck cleaning (Disc- and drum breaks), engine and metal cleaning. Used in automotive-, engineering and metal coating industries, for cleaning chassis, sealing engines, maintenance of tools, protection against corrosion, treatment of surfaces.

**Technical Specifications:-**

Filling capacity (Vol.)	0.5 Liter
Max. pressure	15 bar
Nozzle type	Adjustable nozzle
Nozzle material	Plastic
Material Device/ container	Plastic
Material Fittings	Plastic
Device type	Hand sprayer
Dimension (H x W x L)	100 x 130 x 250 mm

Marketed in India By:

**ROYAL TRADELINKS PVT. LTD.**
